THE LATEST NEWS FROM BADGERDOM

SENT TO WAUPUN FOR TWO YEARS AND A HALF.

William Bublitz, of Kenosha, Pleads Guilty to Holding Up a Conductor at Racine—Cause of Death of Mary Brown, at Oshkosh, Unsolved—Other State News.

Racine, Wis., March 15—William Bublitz, of Kenosha, aged 24, pleaded guilty today to the charge of having been implicated in holding up a Milwaukee, Racine and Kenosha electric car and robbing Conductor Buresch of $23. He was sentenced to two years and one-half at Waupun.

Bublitz, when he walked into the Milwaukee police station a few days ago and confessed, said that his name was William Perry, of Chicago. Today he says his name is William Bublitz of Kenosha, and that he had lived there most of his life. He told Judge Flett that the man who assisted him in holding up the car forced him to do it under penalty of death. He only knew his partner three days and when the conductor was robbed the man took the money and that was the last he ever saw of him.

Bublitz had been arrested of several petty crimes and officers had been looking for him since last fall.

Smallpox Again Breaks Out in Appleton.

Appleton, Wis., March 15—Smallpox has broken out again in this city, and again the cause is said to be the infection from the rag rooms of the local paper mills. The city has just recovered from one siege of the disease which resulted in the deaths of two patients out of thirteen cases. Monday the last of these cases was disinfected, and yesterday another case has been reported, a daughter of Joseph Barrow being the victim. The girl was an employe in the rag room of a different mill from the one where the first cases were thought to have been contracted. No other means of contagion than from the rags can be found in the new case.

Appleton to Sycamore

Appleton, Wis., March 15—The project of building an electric line from this city to Seymour is taking definite form. William Michelstetter is in correspondence with a New Hampshire man who will be here in the course of a few weeks to look over the ground. It is proposed to put in not only a passenger electric system, but also a freight carrying department, and the promoters think that in time they will have mail and express service over the new line. The line as laid out at present will include Freedom and Osborne, with possibly Black Creek. The line will be if constructed about twenty-two miles long.

Cause of Death Unsolved.

Oshkosh, Wis., March 15—Investigation today failed to throw any light upon the mystery surrounding the death of Mary Brown. The physicians found absolutely nothing, so they say, upon which to found a theory of the cause of death, and now await a chemical examination of the contents of the stomach. The coroners will reconvene tomorrow. The remains of the girl were taken to Appleton today, and the funeral will take place there tomorrow.

Child Labor Case at Oshkosh.

Oshkosh, Wis., March 15—The case against Charles W. Radford, of the Radford Lumber company, accused of employing child labor in the factory of the company, has been dropped after several adjournments. Inspector Long, who made the complaint, is no longer in the employ of the state and refused to prosecute. The case against Herman stiller, the father of the child, was dropped also.

Dr. J. D. Butler's Birthday.

Madison, Wis., March 15—Professor James D. Butler, one of the earliest instructors in the university, will celebrate his eighty fifth birthday tomorrow. Dr. Butler has traveled extensively and is one of the most learned men in the United States. His prayers in the legislature are model of dictions and beautiful thought and are always considered by the members of the state body a literary treat as well as a powerful invocation. His home will be open today to friends throughout the city and state.

May Buy Pine in Idaho

Marinette, Wis., March 15—If the deal goes through and everything looks favorable now, Gov. Scofield and his son George will be lumbering in Idaho in another year. They have a project under consideration and if it does a mill will be built at Moscow in the western part of that state. There is a large body of white pine there, enough to last fifteen or twenty years.

Killed in a Stone Quarry

Baraboo, Wis., March 15—Charles Andrews was killed in a stone quarry at Ableman. A stone from a blast struck him on the head.

Crushed to Death

Abbotsford, Wis., March 15—Obed Moore, a farmer, was instantly killed while felling a tree.

Wisconsin Pensions Granted.

Washington, D. C., March 15—Original—William M. Williams, Milwaukee, $6. Additional, Peter Ericsson, National home, Milwaukee, $6 to $10. Increase—Heimuth Melms, Milwaukee, $6 to $8; John Lovekin, National home, Milwaukee, $6 to $8; August Mollenhauer, Cleveland, Manitowoc county, $6 to $8; Harvey N. Yule, Chilton, $6 to $10.

Wisconsin Postmaster Appointed.

Washington, D. C., March 15—An order has been issued establishing a postoffice at Sunset Marathon county, with Manford C. Thorn, postmaster.

STEVENS ONCE RESIDED HERE

Former Janesville Boy Delivered an Address on Municipal Problems

"Some Municipal Problems" was the title of an interesting paper read by E. Ray Stevens before the Literary club, at Madison, Monday evening. It was a discussion of the work of regenerating "the other half" that is now gaining much attention and headway in municipalities. Mr. Stevens' thesis was that the liberation and upliftment of the individual is the great step toward municipal betterment.

Mr. Stevens formerly resided in Janesville, having moved from here to Madison.

TO ASK INTERVENTION

In Order to Allow Spain to Negotiate Directly With Filipinos For Release of Prisoners

Madrid, March 15—[Special]—Premier Silova expects to ask France's intervention in order to allow Spain to negotiate directly with the Filipinos for the release of Spanish soldiers.

Is It Malaria or Alum?

[Popular Science Monthly.]

Langour, loss of appetite, indigestion and often feverishness are the common symptoms of a physiological condition termed "malaria." All these symptoms may be and frequently are the effect of the use of alum baking powders in food making. There is no question about the poisonous effect of alum upon the system. It obstructs digestion, prostrates the nerves, coagulates and devitalizes the blood. All this has been made clear, thanks to physicians, boards of health, and food commissions. So highly injurious to the health of the community does the eminent head of the University of Pennsylvania, Dr. Barker, consider the alum baking powders, that he says "their sale should be prohibited by law."

Under these circumstances it is worth the while of every house wife to employ the very little care that is necessary to keep so dangerous an element from the food of her family.

A pure cream of tartar baking powder, which is the only kind that should be used, ought to cost about 45 cents to 50 cents a pound. Therefore, if you are paying much less, something is wrong; if you are paying 25 cents or less per pound, the powder is certainly made from alum.

Always bear these simple facts in mind when purchasing baking powder.

Kipling Still Improving.

New York, March 15.—Rudyard Kipling, it is hoped, will be able to sit up by the end of this week, and if he is he may receive a very few visitors. Letters in great number arrive at the Hotel Grenoble for him. More than 100 sets of verses and several pieces of music have been sent here.

Orphans' Homes Talked Over.

Rockford, Ill., March 15.—At Tuesday's session of the Illinois conference of the Augustana synod, the orphans' home question was discussed, but no action was taken on the consolidation.

Pope's Health Is Excellent.

Rome, March 15.—The condition of the pope's health is completely satisfactory. There is no foundation for the report published by a news agency in London that the pontiff has suffered from a renewal of fainting spells.

The "Sick Man of the East."

The Turkish empire has been known for many years as the "Sick Man of the East," and this title was first given to it by Nicholas, czar of Russia. On the night of the 9th of January, 1853, the British minister at the Russian court, Sir George Hamilton Seymour, was at a party gathering in the palace of the Archduchess Helen, when the Emperor Nicholas approached him and drew him into a conversation. This was chiefly with reference to eastern affairs, and in course of it he made the following remark as to Turkey and its position: "We have on our hands a very sick man; it will be, I tell you frankly, a great misfortune if one of these days he should slip away from us, especially before all necessary arrangements are made." On the following 20th of February he expressed himself again to the British ambassador in the same strain: "I repeat to you that the sick man is dying, and we can never allow such an event to take us by surprise."

Hopeless Case.

"So poor Green died, did he?" "Yes; died last month." "What seemed to be the matter?" "Melancholia." "Melancholia; that so? What brought it on?" "The attending physician said it was induced by his habit of reading the comic supplements of the New York Sunday papers."—Detroit Free Press.

PROGRESS OF WORK IN LEGISLATURE

RECOMMENDATIONS IN GOV. SCOFIELD'S MESSAGE.

Joint Resolution Requesting Retiring Governor to Send Condition of Public Affairs and Recommendations Was Unanimously Adopted By the Senate.

Madison, Wis., March 15—[Special]—The joint resolution requiring the retiring governor to send a message to the legislature on the conditions of public affairs, with recommendations, was adopted unanimously by the senate this morning. It was urged in Governor Scofield's message.

Thirteen remonstrances from Racine and Kenosha counties against the passage of the Sheridan bill were presented in the senate.

The bill for bounty on English sparrows, was killed without a struggle.

A bill was passed reducing the rate of interest on trust funds from 4 to 3½ per cent.

The assembly after some debate, passed the anti-pass resolution, containing the forfeiture of office clause, by a vote of seventy-two to nineteen.

Eleven minor bills were passed in the assembly.

Assemblyman Daggett's desk was the center of attraction. It was decorated with a tightly laced corset containing a boquet of roses and carnations. It was from the young ladies of Watertown, and was accompanied by a note saying they desired to show their appreciation of Daggett's interest in the welfare of womankind.

The bill repealing the "personal damage suit" statue comes up for hearing before the assembly committee on cities this afternoon. There will be a Janesville representation in favor of the bill and other Janesville influence against the bill. City Attorney Burpee is the principal Janesville spokesman in favor of the bill and M. G. Jeffris is scheduled to speak against the bill. Quite a number of common councils have sent in resolutions favoring the bill.

LUETGERT NUMBER 2

August Becker Confesses That He Killed His Wife And Cut the Body Into Bits.

Chicago, March 15—[Special]—Seven pieces of bone, parts of Mrs. August Becker's body, were found this morning at the place as indicated by the husband, who confessed last night that he killed his wife, cut the body into bits and then boiled them.

FORECAST OF WEATHER

Chicago, March 15—[Special]—Forecast for Wisconsin:

Snow, cold wave tonight and Thursday.

Sheet Steel Trust Formed.

Chicago, March 15.—W. H. Moore of Chicago, the successful promoter of trade combinations, has had placed in his hands the engineering of a combine of sheet steel manufacturers. It is said that options have been taken on a large majority of the plants, including all except one of the larger concerns. The capitalization of the combine is put at $50,000,000. It is believed the tin plate and the new sheet steel combines will have a trade agreement, but will be separate organizations.

Royal Arcanum Is in Session.

Quincy, Ill., March 15.—One hundred and sixty delegates and officers are in attendance at the nineteenth annual session of the grand council of the Royal Arcanum. The Tuesday morning business included reports from officers, showing the order to be in splendid condition. T. N. Haskins, La Salle, was chosen supreme representative. The cities of Bloomington, Peoria and Springfield are applicants for the next session of the council.

To Have $100,000,000 Capital.

New York, March 15.—According to the World the Greater New York Gas and Electric Light, Heat and Power company, which the Whitney syndicate organized several months ago to utilize the surplus electric power of the Metropolitan Street Railway company, has about perfected its plans. It is probable that the capital stock, originally $25,000,000, will be increased to $100,000,000, the increase to be used in the acquirement of different properties.

Control of the Next Senate.

Washington, March 15.—As the senate now promises to stand when the next session begins in December, 1899, the republicans will hold a majority of sixteen clear. Without counting as republicans Stewart and Jones of Nevada and Kyle of South Dagota the republicans will have a majority slightly larger in a body of possibly only eighty-six members than they will have in the house of 357 members.

Death of Ludwig Bamberger.

Berlin, March 15.—The death is announced here of Herr Ludwig Bamberger, formerly a member of the reichstag. He was the author of several books on history and political subjects. He was at one time one of the leaders of the national liberal party and was a constant political opponent of Prince Bismarck.

PASIG AND TAGNIG ARE AGAIN TAKEN

A DESPERATE FIGHT WITH THE REBELS.

The Filipino Force Was Completely Routed—Patros Occupied During Night By Washington Volunteers—General Otis is Highly Pleased With Wheaton's Operations.

Manila, March 15—[Special]—Pasig and Taguig were again taken this morning after a desperate fight with the rebels. The Filipino force was completely routed. Patros was occupied during the night by the Washington volunteers. They formed for a night attack. They crossed the river and fell on the insurgents, who had returned after being shelled out of the place. The Washington volunteers had one man killed, Private Van Buskirk. Private Rodney Church was wounded. Twelve of the enemy were killed and eleven were captured. The fighting is fierce around Taguig. Wheaton's brigade attacked the enemy, who had concentrated their forces there and routed them, after some most severe fighting. After the battle, Wheaton pushed forward and captured Taguig. The American losses have not been fully reported yet. Private Carroll and Combs, of the twenty-second infantry, are among the wounded. Gen. Otis is highly pleased with Wheaton's operations. Today's victory, it is said, is the greatest since February 5. Two gunboats started out this morning to destroy Lake Shipping.

Wheaton Takes Many Prisoners.

Washington, March 15—[Special]—General Otis cabled the following this morning: "Three thousand of the insurgents moved down last night to the towns of Pasig and Pateros, confronting Wheaton's troops on the Pasig river line. By heavy fighting, Wheaton dislodged and drove them back, taking four hundred prisoners, inflicting a heavy loss, many being killed and wounded. He reports his loss as being very moderate. He now occupies those towns, with a sufficient force to hold them.

Nothing to Show That Dewey is Ill

Washington, March 15—[Special]—The bureau of medicine and surgery, replying to a call made upon it by Secretary Long, states that nothing in its records go to show that Admiral Dewey is in ill health.

Washington, March 15—[Special]—The war department officials are gratified over Wheaton's victories. It is understood that Otis' policy is to drive the insurgents into the uncultivated region before the rainy season sets in. There they will have nothing to eat, and it is thought that they will lay down their arms. No attempt will be made to buy off Aquinaldo.

Severe Fight at Pasig.

Manila, March 15—[Special]—Most severe fighting occurred at Pasig, the enemy being routed after seven hours battle. The troops engaged here included three companies of Washington volunteers, two companies of the Oregon Twentieth infantry, two guns of Scott's battery. Many insurgents were found dead and floating down the river since the fighting ceased. The Filipinos are largely outnumbered by Americans.

Manila, March 15—[Special]—There There is great jubilation today over Wheaton's victories. The American casualties according to reports so far, show one regular killed and five wounded.

Manila, March 15.—The rebels burned the town of Pasig last night before finally evacuating it.

Gen. Wheaton's column encountered the enemy in such force between Pateros and Taguig late yesterday afternoon as to cause some change in the original plans.

The cavalry attacked a rebel stronghold in the jungle, driving the enemy into Pateros. Later the enemy retreated across the river from Pasig.

Two companies of the Second Oregon infantry cleared the right bank after a sharp engagement. In the meantime the Washington volunteers closed in, driving small bodies of the rebels back upon Pateros.

Wheaton Drives the Rebels.

Manila, March 15.—Gen. Wheaton at daylight Tuesday followed up the advantage gained Monday against the insurgents, moving southward on Pateros and Taguig, where the rebels were in force. Every step was met with determined opposition, and at the end of the day comparatively small progress had been made, as there was no means of crossing the river.

In a charge made to dislodge some rebel sharpshooters, who were hidden along the west bank of the river, a private of the Fourth cavalry was killed, and Capt. Wheeler and four privates were wounded.

After the rebels had retreated to Pasig Monday it was impossible for our troops to reach that place, the advance being stopped by the river, the Americans having no means at hand to cross in force. The bluffs opposite the town were occupied by Scott's battery of the Sixth artillery, which shelled Pasig, making it for the time being untenable by the rebels.

During the night, however, the Filipinos returned, and it was decided to further bombard their positions. The gunboats which had been employed in Laguna de Bay, or Bay lake, were assigned to take part in the operations, and they did good work.

As soon as it was sufficiently light the firing began and the artillery and gunboats were not long in making things so warm that the Filipinos deserted the town with all possible haste.

Our fire then ceased, but it was not long before a body of rebels, estimated to number a thousand, sneaked back into Pasig and again opened fire on our men. Once more our forces resumed their artillery practice, and the enemy suffered heavy losses from the fire of the Gatling guns.

The towns of Pateros and Tajes Taguig, which were occupied by the enemy, were also shelled by Gen. Wheaton's brigade, but our forces could not capture these places, the river proving an impassable obstacle.

Some annoyance was caused by rebel sharpshooters who were concealed in the brush on the west bank of the river, and a troop of the Fourth cavalry was ordered to clear them out. The cavalrymen charged upon the Filipinos at a hard gallop and put them to rout, but not until Private Samuel Jones was killed and Capt. Fred Wheeler and Privates Ernest Wilcox, Michael Good, George Parker and Horace Smith—all members of the troop—were wounded.

Later in the day a battalion of the Second Oregon regiment, managed to get across the river into the town of Pasig.

The entire brigade was slightly advanced from the position which it held Monday, but met in its forward movement with stubborn opposition from the enemy.

Our troops captured three barges loaded with provisions destined for the insurgents. The barges were under the guard of seventy-four rebels, who were commanded by a major and captain, all of whom were taken prisoners.

Orders have been given to Maj. Grant to take one of the gunboats and destroy all the vessels in Laguna de Bay. These boats have been employed in carrying to the rebels provisions and munitions of war, and their destruction will prove a hard blow to the Filipinos.

The signal corps is doing excellent work, and through their efforts communication between Manila and the front has constantly been maintained.

Will Crush the Rebellion.

Washington, March 15.—It is the purpose of the administration to pursue the rebellious Filipino army in the island of Luzon until either its effectiveness is destroyed or Aguinaldo is compelled to sue for peace without conditions. The attack begun by Gen. Wheaton was the opening of a determined campaign which will be carried on without cessation until the authority of the United States in the Philippines shall be undisputed.

Washington, March 15.—The following cablegram from Gen. Otis was received at the war department Tuesday:

"Manila, March 14.—Adjutant General, Washington:—Until yesterday field operations here since capturing Caloocan had been of minor nature, consisting of driving back small bands of insurgents, with considerable loss to the latter. Yesterday Gen. Wheaton, with the Twentieth and Twenty-second infantry, the Oregon and Washington troops, a section of the Sixth artillery and a squadron of the Fourth cavalry attacked a large force of the enemy drove them back and took the line of the Pasig river, which he now holds. Two improvised gunboats in the lake have captured considerable property. Insurgent loss heavy; our own killed and wounded slight, aggregating thirty-five, mostly slightly wounded. Insurgents made no determined stand.

"Otis."

Madrid Editors Indignant.

Madrid, March 15.—The newspapers comment indignantly on the action of Gen. Otis, the American military commander at Manila, in stopping the negotiations of the Spanish commissioners with the Filipinos for the ransom of the Spanish prisoners held by the latter. They declare that Gen. Otis has repudiated the treaty undertaking of the United States.

Strength of the Brooklyn Bridge.

The recent discussion by engineers of the safety of the great Brooklyn bridge under the increased strain caused by the addition of trolley and elevated cars to its moving load, has brought out some interesting facts about the huge structure. At present the total strain upon the cables is 13,974 tons, but their ultimate strength is 45,200 tons, so that the "factor of safety," is 3.52. It would not be possible to crowd enough moving load upon the bridge to break the cables. The immense anchorages of masonry to which the ends of the cables are fastened have been moved forward by the pull of the cables one-eighth of an inch in eight years. The "natural life" of the bridge is reckoned at 2,000 years.

A Xantippe Outwitted.

An Englishman of Lymington had the misfortune to live in a continuous quarrel with his wife, who was a modern Xantippe, and threatened, in case she survived him, to dance over his grave. It was her lot to outlive him, but it was not so easy to carry out her threat. The husband had the precaution to make an injunction in his will requiring his body to be buried in the sea near his residence and without ceremony. The injunction was complied with.

BLISS EXAMINED BY COURT OF INQUIRY

SERVED THROUGH THE PORTO RICAN CAMPAIGN.

He Testified That the Beef Was Unfit For Any Person to Eat and That it Poisoned Many of His Men—Was Dirty and Had to Be Buried.

Chicago, March 15—[Special]—Major Bliss, of the Third Illinois, who served throughout the Porto Rican campaign, was the first witness examined by the Miles court of inquiry this morning. He testified that the beef was unfit for any person to eat and that it poisoned many of his men, liberal injections of morphine failing to relieve their sufferings. The meat, he said, was a dirty, stringy substance and disgusting to look upon. In many cases it was filled with maggots and had to be buried.

Chicago, March 15—[Special]—Col. Bennitt, of the Third Illinois, has corroborated Shaw's testimony.

HOBART MAY RUN AGAIN

Understood That the Question Will Be Determined During McKinley's Stay at Thomasville.

Washington, March 15—[Special]—Vice President Hobart may again be McKinley's running mate in the campaign of nineteen hundred, at least this is the supposition around the national capitol. It is understood that this question will be determined during the president's stay with Mark Hanna, at his winter residence at Thomasville, where the two close friends are rusticating.

VISITED BY TORNADO

The Elements Play Havoc at Birmingham, Ala., Doing Great Damage and Injuring Many.

Birmingham, Ala., March 15—[Special]—A tornado passed through this section today. In the suburbs of this city thirty thousand dollars' damage was done. There were several persons seriously injured. It is believed that great havoc was wrought in the outlying districts.

Anti-Boycott Bill Passes.

St. Paul, March 15.—The house Tuesday passed O'Neil's anti-boycotting bill. The bill absolutely prohibits the practice of the boycott in any of its forms. It is made absolutely unlawful for two or more persons to conspire together for the purpose of preventing any person, persons, firm or corporation from carrying on any lawful business within the state of Minnesota or for the purpose of interfering with the same, or for the purpose of inducing others not to trade with or patronize such persons or firms. It is made unlawful to print or circulate any boycott cards, stickers or dodgers, or to advertise by writing or printing in words that a boycott exists or is contemplated. The penalty is a fine or imprisonment.

Win Anti-Pass Victory.

Madison, Wis., March 15.—The assembly Tuesday, by a vote of 53 to 31, incorporated the forfeiture-of-office clause in the joint resoltion providing for a constitutional amendment prohibiting the use of railroad passes and telegraph and express franks by public officers. The senate had previously refused to incorporate this clause when it adopted the resolution. It will be difficult to persuade either house to recede from its position, and the ultimate outcome is problematical. There were two reports from the judiciary committee on the amendment—the majority without the forfeiture-of-office clause, and the minority carrying the forfeiture.

Honor Dr. Isaac M. Wise.

Cincinnati, O., March 15.—In honor of the venerable and leading American rabbi, Dr. Isaac M. Wise, the convention of American rabbis assembled here Tuesday celebrated the latter's 81st birthday. At the session of the convention Dr. Wise was presented with a gavel of gold oynx and ivory and tokens of affection and esteem have been received from nearly every Hebrew church in the country.

Snowbound Train Given Up.

Cheyenne, Wyo., March 15.—The snow-bound train on the Cheyenne & Northern, at Wheatland, has been abandoned by the company officials, who will take steps to rescue the passengers by means of sleds. There are still four women on the train, and their sufferings from cold and hunger during the month's imprisonment have been terrible.

Kaiser Will Rule the Navy.

Berlin, March 15.—The Official Naval Gazette publishes an imperial order reorganizing the higher administration of the navy. Henceforth the emperor holds supreme command and the office of commander-in-chief lapses and the existing staff of the commander-in-chief become independent under the title of admiral's staff.

WHITESIDE GAVE FINE PRODUCTION

ENTHUSIASTIC AUDIENCE AT THE MYERS GRAND.

Last Evening's Play Proved a Treat Long to Be Remembered—Received a Curtain Call—Robert Mantell Here This Evening—Other Good Attractions Are Coming.

Walker Whiteside, the well graced young actor, who has for some years heroically borne the banner of the classic drama and achieved a well earned reputation in the great roles of that literature, brought forth a novelty in the Myers Grand last evening in the only version of "Lion Amoreaux," the great Perisian success by the famous French playwright, M. Ponsard, the English version of which is "The Red Cockade."

The production is a charming, romantic comedy-drama, with an intense heart and love interest, in which Mr. Whiteside, as the leading spirit, did himself proud. Its comedy is delicious, and the dramatic situations convincing and forceful. The play is modern in tone and of the most correct construction, following as it does, in a great measure, the French original.

The story as portrayed last evening in word pictures and graceful acting, is a simple straightforward romance of the period of 1795. The hero, Captain Martel, is one of the common people, whose merits elevated him to the position he holds as the head of the "Committee on Public Safety." The heroine is Beatrice de Lille, the daughter of the Duke de Lille, a nobleman who has been proscribed by the revolutionists. Beatrice is betrothed to Count Phillipe de Valmont, another hated aristocrat. Beatrice beseaches Captain Martel to remove her father's name from the list of proscribed, on condition that the duke will not take up arms against the new revolutionist. Martel grants the request. He also falls in love with Beatrice and she with him. In fact, in this production, there is plenty of material for exciting and thrilling episodes.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by Peoples' Drug Co.

Mr. Whiteside's company gave admirable support. Miss Lelia Wolston acted Beatrice Lille with pretty charm of manner and excellent skill in the technical business of her scenes, and her costumes were uncommonly fetching. Little Miss Antoinette Walker as Marie Dupont was one of the striking successes of the presentation and won her audience completely. Frederick Power as Count Valmont was felicitous and original in the treatment of the character. The balance of the company were all that could be desired.

There was a fair sized audience present, but the production was worthy of a crowded house.

Robert Mantell This Evening.

Whenever a distinguished actor announces the production of a play, the public's curiosity is stimulated to a piquant degree. The announcement that Robert B. Mantell is to appear here tonight in his romantic play "Monbars" is received with delight by all theatre goers who have not yet lost relish for the best forms of dramatic art. Mr. Mantell, who has long been recognized as one of the best romantic actors before the public, appears here this season under the management of Mart W Hanley, who is universally known as one of the ablest managers in the profession. Mr. Hanley has determined to give his star every advantage of worthy artistic support and adequate scenic equipment. The play will therefore be presented elaborately and thoroughly and all admirers of Mr. Mantell will surely welceme his appearance here with eagerness and enthusiasm.

Stuart, the Male Patti

Speaking of Stuart, "The male Patti" who will appear as Isabella, the Daisy Queen, at the Myers Grand, Friday evening, a Boston paper says: "Stuart, the young soprano, has been very correctly termed "the male Patti." He is decidedly the best female impersonator seen in Boston in many years, and the receptions he has received are most flattering.

The extravaganza "1492" is said to have been entirely rejuvenated and splendidly costumed, as well as being emblazoned with elaborate new scenery.

La Prairie.

La Prairie March 14—Spring, childlike, ventured too far and took a sudden cold. The L. M. B. S. were entertained in the best of manner at the home of Mr. and Mrs. Herman Kellogge last Thursday. After partaking of a sumptuous repast the society presented Mr. and Mrs. Kellogge with two very handsome chairs, this part of the affair being a complete surprise to the host and hostess. The meeting will long be remembered as a social success. Inez Arnold closed a very successful term of school in the Case district last Friday. She will return for the spring term. Lou Proctor has given up farming and moved into the city. The personal property of the late Lester Van Galder will be sold at auction on the Hedditch farm, Saturdy, March 18th. The young people of the family of G. A. Proctor were very pleasantly surprised last Friday evening. Their many friends dropped in upon them for a jolly good time. The evening was spent in dancing, cards, other games, etc. J. E. Gleason Sundayed in Madison with his brother-in law, J. J. White. H. Tarrant narrowly escaped a serious accident. While on his way to Janesville the king bolt of his carriage gave way and the horse went on with the front wheels of the vehicle, leaving him behind with the remainder of the buggy and a horse he was leading. A neighbor came along in time to take Mr. Tarrant to town. The horse was found in the livery barn of Tarrant & Bros. Pleased to say no serious damage was done. Many of the friends and neighbors of Mr. and Mrs. George Turke were royally entertained at their home on the Emerald Grove road last Monday afternoon, celebrating their twenty-fifth wedding anniversary. A handsome steel ceiling has just been completed in J. E. Gleason's spacious sitting room. Mrs. Elsie Youmans Culver is quite seriously ill with neuralgia. The L. M. B. S. will hold their next meeting at the home of Mr. and Mrs. H. A. Finch, March 23. Grange meeting next Saturday evening. Let every member be present, as this promises to be a very interesting meeting. Miss J. Eddington will close her school in district No. 3, next Friday afternoon. She expects to return.

Rock River.

Rock River, March 15—Mrs. Marshal Coon, of Milton Junction, spent several days with her daughter, Mrs. Wade Loofboro, last week. Glen and Eva Maryott are spending a few days with Mrs. Alta Young of Edgerton. Hattie Ashley is staying at Frank Miles, this week. Mrs. N. M. Rose returned Saturday from a three weeks' visit with her daughter, Mrs. Thomas Rogers, of Whitewater. C. D. and William Balch are on the gain. Frank Buonham and Joe Vincent are on the sick list. Etta Garthwait visited Rock River friends this week. School closed at this place Friday. E. D. Vincent was a caller at Harry Schroeder's at Otter Creek Sunday. Mr. and Mrs. Charley Hudson's children have been on the sick list, but are improving. C. M. Garthwait is working for O. T. Vincent this week. O. T. Vincent has bought A. D. Williams' farm, and is moving his goods this week, but will not take possession until the first of April. Mr. Williams will live in Janesville. Ira Bond is moving on the farm vacated by O. T. Vincent. Watt Noyce was on the River road again this week. Mr. and Mrs. Joseph Fassett are sick with the grip. George Richel made his usual trip to Edgerton, Saturday. John Lorimer is drilling a new well.

CLOSE OF A SUCCESSFUL TERM

Short Course at the College of Agriculture at Madison

One of the most successful tearms ever expericenced in the College of Agriculture has drawn to a close and the young men have left for their homes or to positions which have been secured for them by the college.

The attendance during the past term in the short course in agriculture was 196, more than double that of three years ago; of this number thirty-two come to us from other states and 164 from Wisconsin.

Dairymen, stock breeders, horticulturists and general farmers have been quick to realize the importance of the services of these young men, and no less than one hundred calls have been received at the college during the past three weeks for the students.

Seventy-one students secured positions as managers and helpers on dairy, stock and fruit farms, and left the college at the close of the term to enter upon their respective lines of work in the different states to which they had been called as follows: 5 to Illinois; 5 to Iowa; 3 to New York; 3 to Minnesota; 2 to Montana; 2 to Tennessee and one to each of the following states: Mississippi, West Virginia, California, Virginia, Nebraska, Connecticut, Massachusetts.

44 accepted positions in Wisconsin, while the larger portion of the students return to their own or their parents' farms.

Numorous calls for the young men are now coming in daily which we are unable to fill.

The next term of the short course, beginning Nov. 28, 1899, promises to surpass all previous terms in the way of attendance; already 110 applications have been received for admission to the course from young men of this and other states.

BOWER CITY NOT INCLUDED

In the New Base Ball League Formed at Fond du Lac

A base ball league has been formed in Wisconsin and Janesville has been left out.

The Bower City was invited to enter, but lack of interest made the forming of a club here impossible under the circumstances.

The towns included in the new league are: Kaukauna, Neenah, Menasha, Waupun, Oshkosh, Sheboygan, Fond du Lac, Green Bay and Manitowoc.

The clubs will be under a pledge not to pay more than $200 a month in salaries for players while they may pay as much less as they choose and can secure players for. Several of the towns will be able to get along without hiring any players while others may find it necessary to hire as many as five or six.

Real Irish Wit.

Hon. George R. Peck so keenly appreciates a good joke that he tells the following on himself:

"When, after a foreign trip, I was being welcomed by some of my friends in Topeka, I wore a suit of clothes made by a London tailor that was uncomfortably tight in places. I expressed my surprise that a loose fit in London should prove a tight fit in Topeka, whereupon an Irishman of the party exclaimed:

"'Mr. Peck, don't forget you're a bigger man in Topayka than you were in London.'"

Mr. Peck told a friend on Saturday last that "Orangeine" had wonderfully cured him of a most distressing cold, which had clung to him for many days past. He felt so sick in the morning that he could hardly stir, but was so well in the evening that he went to the theatre, feeling better than for weeks, and attributed his recovery entirely to "Orangeine," which he had been taking as directed during the day.

Thus are the virtues of this great medicine being rapidly discovered.

TOBACCO PRICES CONTINUE STRONG

BUYERS ARE EAGER TO GATHER UP REMNANTS.

Holders of Anything Like Choice Crops Can Easily Command Seven Cents Or Better—A Few Weeks More Will Wind Up the Buying Season.

The eagerness of the tobacco buyers to gather up the remnants of the crop prevails in most of the growing districts to as great an extent as at any time during the buying season, and prices continue strong for every quality of leaf remaining unsold. Holders of anything like choice crops can easily command 7 cents or better, while much of the cheaper grades, suitable for export, find ready sale at 5 cents or above. In some localities in Rock county there is but little tobacco left in first hands, and but scattering lots at best remaining unsold—possibly 10 per cent. of the crop grown last season. A few weeks more will wind up the buying season. The packing centers are still busily engaged in preparing the crop for the cases, and many of the warehouses have work in sight into June, or long past the usual packing season.

The most active demand for old goods at present is for good filler or "shorts," and some sales are reported in moderate sized lots.

Mr. Herman Reps, representing the New York exporting house of C. Erdt, and Mr. J. E. M. Kraemer, tobacco dealer of Rotterdam, Holland, are in this portion of the state looking up the prospects for the expert trade in Wisconsin leaf.

At Edgerton, the shipments out of storage reach about 700 cases, thirty-five carloads for the week to all points.

THROWN FROM HIS HORSE

Wm. Tobin Met With an Accident Last Night

Wm. Tobin, who resides about seven miles west of the city on the Footville road, came to town yesterday afternoon on horseback and while returning to his home last evening, met with an accident of a very serious nature. In the first ward his horse became frightened and threw him across the street railway track, where he remained unconscious until his brother, Walter, who resides west of the city, drove along and discovered, to his surprise, that the injured man was his brother. The injured man was picked up and taken to the office of Dr. M. A. Cunningham. It was found that Mr. Tobin was cut and bruised in several places, although it is said his injuries are not of a serious nature.

BEEF NOT INSPECTED.

Millions of Pounds Purchased but Not Examined.

Chicago, March 15.—The court of inquiry examining into the army beef scandals developed the following facts at Tuesday's session:

In the three years of Col. Smith's service in the commissary department the government had never before purchased any canned roast beef, so-called, for its soldiers.

Between May 9 and July 19, 1898, Col. Smith bought 2,759,272 pounds of canned roast beef of Chicago packers, and none of it was subject to the rigid inspection required by United States law. Col. Smith's excuse was that it was an emergency purchase.

Commissary General Egan, contrary to custom, and over the head of Col. Smith, contracted direct for 1,090,000 pounds of canned roast beef in addition to the amount bought by the local commissary office. This likewise was not inspected.

Swift & Co.'s chief constructor, Horace Gardner, testified that he had advised the necessity of refrigerating plants on shore, in addition to refrigerating ships, and G. F. Swift himself declared he had not expected refrigerated beef to last twenty-four hours ten or twenty miles from shore. He had intended the supply to be consumed at post stations and not at inland places. Canned roast beef was expected to be the article of diet inland.

Limit to Doctor's Testimony.

Albany, N. Y., March 15.—Gov. Roosevelt has signed an amendment to the civil code, which prohibits absolutely a physician from divulging any information concerning one of his patients either before or after the death of that person. For a long time the insurance law has permitted a physician to testify concerning the physical condition of a policyholder, which was in variance with the code.

Mormons Active in the East.

Jamestown, N. Y., March 15.—The Mormon elders who have been holding meetings in this city for the last few weeks have begun to attract attention. The women's organizations are especially active in making a fight against them. Strong resolutions have been passed by the W. C. T. U. and W. C. A. against them. It is reported that the Mormons have made some converts among the working people of this city.

THE OLD WAY.

Of Treating Dyspepsia and Indigestion by Dieting a Dangerous and Useless One.

We say the old way, but really it is a very common one at the present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken, in other words, the starvation plan is by many supposed to be the first essential.

The almost certain failure of the starvation cure for dyspepsia has been proven time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a man suffering from dyspepsia, because indigestion itself starves every organ and every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia, in other words the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the system is nourished and the overworked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 3,000 grains of meat or eggs.

Your druggise will tell you that Stuart's Dyspepsia Tablets is the purest and safest remedy for stomach troubles and every trial makes one more friend this excellent preparation. Sold at 50c. for full sized package at all drug stores.

WOODMEN OF THE WORLD.

Biennial Session of Sovereign Camp Opens at Memphis.

Memphis, Tenn., March 15.—The Sovereign Camp, Woodmen of the World, the fifth largest fraternal and beneficiary order in the United States, met here Tuesday in biennial session, with sixty delegates in attendance. The sovereign camp is composed of delegates from all the states in the United States, with the exception of the Pacific jurisdiction, which has a separate head camp, but is represented at this convention by fraternal delegates, as is also the Canadian jurisdiction.

The Woodmen Circle (ladies auxiliary) is also in session. The annual election of officers will take place Thursday. The conventions will probably be in session for ten days or two weeks.

Carrier Must Pay the Tax.

Chicago, March 15.—The decision announced by Judge Tuley last summer in the suit brought in the name of the people against the United States Express company to determine the question of who should pay the war revenue stamp tax on all shippers' receipts, was affirmed today by Judges Freeman, Horton and Shepard of the branch Appellate court. Judge Tuley decided that the carrier in this case, the United States Express company, under the law was obligated to furnish a stamped receipt to the shipper and this opinion is sustained by the unanimous opinion of the Appellate court. In deciding the appeal the court based its opinion on the ground that the levying of the tax was intended by the government as a tax upon the business of the carrier, and not upon the shipper.

INDIANS IN A TEMPER.

Fears of an Outbreak on Leach Lake Reservation.

Minneapolis, Minn., March 15.—Michael Gogins, a well-known and conservative pine cruiser, says the Leech Lake Indians are in a dirty temper and ready for any sort of deviltry. They have been holding councils two or three times a week and the proceedings are kept very quiet. The Indians' grievance is based on a fear that after prospective pine sales are over they will still be in debt, something that has been known to happen before. Gogins says the Indians could muster in case of trouble fully 1,200 fighting men, nearly all armed. The government has lately ordered the two companies of the Seventh Infantry away from Fort Snelling, and the state now has no available military force except newly organized militia.

Rich Strikes in Gold Fields.

Seattle, Wash., March 15.—News has been received here of a rich strike in the Sea Level mine near Ketchecan, in southeastern Alaska. A vein of $40 ore has been discovered, with streaks that run as high as $60 to the ton. Some selected specimens received here will average from $20,000 to $60,000 to the ton. The Sea Level mine is principally owned by San Francisco parties.

Victoria, B. C., March 15.—An immensely rich gold strike is reported to have been made on Granite creek, near Albini, on the west coast of Vancouver island. Assays make a showing of $5,800 to the ton. There is great excitement in the district.

Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving account of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co

No Right to Investigate.

San Francisco, Cal., March 15.—The state board of railroad commissioners has dismissed the proceedings instituted by the former board to investigate the business of the Pullman Palace Car company in California, with a view of adjusting its berth rates. The resolution to dismiss, which was adopted, stated that as the attorney-general had advised the board that it had no jurisdiction over the business and rates of the Pullman company, there was no alternative but to drop the matter.

There Isn't Much Difference In the Looks

of good Shoes and bad Shoes, when you see them in the store; but there is a great difference when you put them to the test of hard wear. Most people buy Shoes on faith—take chances, or have confidence in the seller. You don't them—can't know them until tried by wear. It has been our object to treat our patrons in a way to gain their confidence, and our new shoe department will be no exception to the rule. If you ever bought anything at the Wide Awake which was not entirely satisfactory, and didn't bring it back, its your own fault, for distinctly say over and over again, we want you perfectly pleased in Style, quality and price.

A THUG IN THE TOILS.

"Jaydice" Kennedy, murderer, highwayman, burglar, desperado, ex-convict and all-round thief, is again behind the bars in Cincinnati.

He is charged with larceney, and that he be given the limit in prison is the fervent wish of the police. It was while he was attending the funeral of a friend that this notorious thug, who can no more keep from stealing than water can from flowing down hill, robbed a man. Then, after getting all the money he could lay his hands on, he and the men who were with him left the funeral cortege and proceeded to get drunk on the proceeds of the robbery. It was too cold for the ex-convict to walk, so he and his friends took one of the funeral carriages and rode around town to the various resorts. Two of his friends were captured with Kenndy, but the other, Fred Romer, succeeded in making his escape. He has an extensive police record, and as he is known to every member of the police department

JAYDICE KENNEDY.

he will soon be with his friends behind the bars. The funeral the men were attending was that of William Corbin, who has in his time figured in a police case.

Married by Telephone.

From Elmira comes the story that a ring at the parsonage bell of Dr. Isaac Jennings was answered on Monday evening and a young man resident of Williamsport, Pa., asked to see the minister. Explaining that he had 'a somewhat novel request' to make, the young man produced a letter from the father of a young woman, asking the minister to unite his daughter in marriage to the caller by the unusual intervention of the long distance telephone. The reason assigned for this particular method of procedure was the desire of all parties for a novel wedding. Accompanying the request was a statement to the effect that Mr. Maxwell, the writer of the letter and father of the would-be bride, had consulted his attorney and had been assured that there were no legal complications or obstacles in the way, and that he would guarantee the minister against any grievance in the matter. The minister, after hastily consulting a lawyer, went with the young man to the long-distance telephone office on State street and asked to be put on communication with Mr. Maxwell. He found everything in readiness, the telephone having been previously engaged by the father and the other half of the wedding party in waiting at the other end. After a short parley, in which the ground was gone over with the father, and the assurance given that there was no objection on his or the mother's part, and that all were ready the young women of the telephone office were "invited to the wedding" and the usual questions and answers were given and repeated, so that all the witnesses heard. The clergyman, Dr. Jennings, then declared that Harry A. Rantz and Miss Nellie G. Maxwell were husband and wife. Congratulations were extended by all parties, and the happy groom took to the train for Williamsport to join his bride.

Gambling in Italy.

The Italians generally are very superstitious, and they gamble persistently, the poor people especially, in the government lotteries. Everything has a number; a cat, a dog, a gondola, and the "Libro die Sogno"—the lotto player's oracle—will tell you what the number is, and the rules for interpreting the appearances in dreams. Visitors to Venice, which has always been a stronghold of gambling, may have seen the declaration of winning figures from the Campanile of St. Mark's—the silent, eager crowd gathered in the square, and the group of officials gathered round the boy with the bandaged eyes who draws the numbers from the cage. There is a story told in Venice of a madman who hailed a gondolier from the window of the madhouse on the island, to tell him the numbers he had dreamed. The man put his money on them and won, and from that day to this the gondoliers go near the window as they pass in the hope that the madman will call again. The story is true.

Burned in Its Cradle.

The six-weeks-old baby of Charles Shiver, of Spottsville, Ky., died a horrible death the other day in its cradle. The cradle was near the fire, a spark flew out setting the covering afire, and in an instant the infant was enveloped in flames. Its faint screams brought its mother from an adjoining room, but when the flames were extinguished death had left a charred corpse.

STOLE $1.50 COAT; GOT SIXTY DAYS

EIGHTEEN YEAR OLD BOY BEFORE THE BAR.

Chilly March Winds Tempted William Mass and He Fell Into Officer Beneke's Hands—Chief Hogan Declares War on All Beggars Who Prey on Politicians.

For stealing an overcoat to the value of $1.50 in order that he might keep warm, William Mass was sentenced this morning to two months at hard labor in the Rock county jail.

The prisoner on appearing before the bar of justice pleaded guilty to the charge of larceny, stating that he had no reason for stealing the coat other than that he was cold and needed one. Mass informed the court that he was eighteen years of age and that for several months past he had worked as a member of a Chicago and Northwestern section crew north of Baraboo. He said that his father was dead and that his mother lived eight miles from Reedsburg. When asked by the court if he was a drinking man, Mass said that he never touched liquor.

When sentenced by the court he said nothing and showed no signs of being sorry for what he had done.

Judge Fifield then administered a lecture that Mass is not likely to forget. He informed him that it was a good plan to leave other people's property alone no matter how bad you need it.

Mass stole the coat from Albert Ludwig in this city on March 9 and last evening he was arrested by Officer Fred W. Beneke and lodged in jail.

After Political Beggars.

John Mosher was also before the court on the charge of being a common drunkard and vagrant was found guilty and sentenced to two months in jail at hard labor.

Mosher resides in Janesville, but since last October he claims to have been working outside of the city.

Chief Hogan arrested him last evening while he was in the act of preying on several of the local politicians for cash.

Chief Hogan says that this old political gag of begging money from politicians prior to election has got to stop and that from now on all parties implicated in such work will be arrested and brought before the court.

This means in particular each and every member of the Whitelight club.

DEMOCRATS TO SET UP PINS

Calls for Democratic City Convention and Caucuses Issued

A call has been issued by the chairman of the democratic city committee for the holding of a city convention. Calls have also been issued by the chairmen of the ward committees for caucuses to be held in the various wards, for the purpose of placing in nomination ward officers and appointing delegates to the city convention. The caucuses will be held Thursday evening, March 25 and the city convention will be held in the council chamber, Saturday evening, March 25th, at 7:30 o'clock, for the purpose of placing in nomination candidates for city offices to be voted for at the approaching municipal election.

FLOOR WAS OVER LOADED

Accident at the Blodgett Mill Caused Considerable Damage

What came near bein a serious accident, happened this week at the Blodgett Milling Company's mill in this city.

On the second floor of their storage building they had stored several tons of flour, the weight of which proved too great, the floor giving way with a crash.

At the time of the accident, employes were in the office but on hearing the noise escaped without injury.

Considerable of the flour was damaged, and it will require a neat little sum to replace the damage.

PROF. MAYNE WILL ATTEND

Interesting Gathering Scheduled for Fond du Lac This Month

Prof. D. D. Mayne will take part in the program to be given at the eighth annual convention of the Northwestern Wisconsin Teachers' association at Fond du Lac, March 29 and 30. As the convention occurs during the spring convention of the city schools, the teachers are afforded an excellent opportunity to mingle with their co-workers in other parts of the state, and exchange ideas. The letter of information sent out by the Fond du Lac committee announces that first class hotel accommodations may be secured at reasonable prices.

Porter

Porter, March 15—Miss Katie Ford closed another successful term of school in the Stevens' district on Wednesday. A dance in Porter Band hall, March 17, is the chief attraction this week. The roads are in a horrible condition at the present writing. Ben Peach and family expect to move to Edgerton soon, having rented their farm. D. F. McCarthy has sold his farm of sixty acres to Orfa Essenden at $55 per acre. D. F. Donnane, Green county's hustling auctioneer, will cry an auction at M. Ford's on Thursday of this week. Miss Hattie Lay is spending a few weeks in Edgerton. Mr. Beenanch and family, of Edgerton, are to move onto Mrs. Ludden's farm. Will Nichols has leased his house and tobacco land to Ole Larson, for the coming year. Claude Hendricks and wife, of Edgerton, were visitors at the parental home here a few days the first of the week. N. J. Casey, of Janesville, was a caller on Monday.

CREAM PUFFS.—Put one cupful of boiling water in a small basin and set on stove; add a little less than one-half cupful of shortening (one-half butter, the other half lard). While boiling add one even cupful of flour well sifted, stir until thoroughly smooth and creamy, remove from stove. When cool, add three eggs, one at a time, stirring each time thoroughly; drop the dough in a buttered tin in small cakes, thin and flat; with a silver knife drop little pieces of dough on these in rough lumps. Bake 25 minutes in a very hot oven. Do not look at them for 10 or 15 minutes, as the jar from the oven door will cause them to fall. When cold, remove the tops with a sharp knife and fill with cream filling as for cream pie.

FRIED CAULIFLOWER.—Soak, head downward, in cold salted water; cook until tender in boiling salted water. Separate flowerets, season with salt, paprika, lemon juice; let stand several hours. Dry the flowerets; roll each piece in beaten egg, then in bread crumbs; repeat this process until parts are well covered. Fry in deep fat, smoking hot; drain on soft paper. Serve on folded napkin with tomato sauce.

HONOR ST. PATRICK ON NEXT FRIDAY

WELL KNOWN PRIESTS TO PRESIDE AT THE CHURCH.

Exercises Take Place at St. Patrick's Church at Ten O'clock and Rev. Father Dowling, of Argyle, Will Preach—Father McBride, of Oconomowoc, Will Be Celebrant.

The celebration of St. Patrick's day throughout the country next Friday will be an event of note. In all cities where the patron saint has a following something will be done in honor of his memory.

In Janesville the preparation for this day have been the fullest that the representation will permit. In the morning at 10 o'clock special services of an impressive nature will be held at St. Patrick's church and the attendance is expected to be complete.

Rev. Father Dowling, of Argyle, will be present and preach the sermon. Rev. Father McBride, of Oconomowoc, will act as celebrant.

In the evening at Columbia hall, four local Catholic societies have joined in mapping out a most interesting musical and literary program. No pains have been spared in making preparations for this event, and it is looked forward to with happy anticipation by all. The plans are now complete, and they contemplate an evening of unusual social importance.

There will be no parade on the streets this year, other than the A. O. H. No. 1, society, who will march from their hall in full uniform to St. Patrick's church, where they will attend morning services in s body.

PAPER MAKING IN JAPAN

Young Man of That Country at Appleton Studying Methods.

H. Mashima, the son of one of Japan's best known paper manufacturers, is in Appleton for the purpose of studying the details of the paper business, and has entered the employ of the Combined Locks Paper company at Combined Locks. Mr. Mashima has been in this country for about two years, part of which time was spent in the University of Cincinnati. After about six months in this valley he will return to his native land and take charge of part of his father's mills at Osaka. His father was the first Japanese manufacturer to purchase and operate an American paper machine in the far east.

The Combined Locks company last year shipped immense quantities of print paper to Japan.

Mr. Mashima gives an interesting description of the paper industry in the Mikado's islands, and tells why it is that the Japanese are forced to buy American print paper by the low prices which are made by the mills of this country, while the Japanese mills, with the advantage of cheap labor, cannot approach the rates made by the mills in the United States.

One of the causes of the trouble among the Japanese manufacturers is the lack of modern transportation and power conditions. While Japan, as Mr. Mashima expresses it, is a very hilly country and abounds with ideal water powers, still the manufacturers are not able to avail themselves of the rapid streams by a lack of railroads to the possible sites for mills.

Mr. Mashima says that the main trouble in his country is that while the Japanese workmen are quick and intelligent, they have not been educated like the Americans into original lines of work.

PECK'S SUN TO BE REVIVED

The Ex-Governor Will Occupy the Editorial Chair.

Ex-Governor Peck has decided to revive Peck's Sun, in Milwaukee, the newspaper that made him famous. He will again occupy the editorial chair, which he left for the governorship several years ago. Of late he has been lecturing under the auspices of the Southern Lyceum bureau, and has been very successful. His two sons, George W. and Roy, will be associated with him in the enterprise, and the governor's success is anticipated by all his friends who have been acquainted with his plans. Peck's Sun at one time had a circulation of 95,000.

DEMISE OF MRS. MARY KELLY

Resided For Many Years In the Village of Footville.

Yesterday afternoon at 4:30 o'clock, Mrs. Mary Kelly died at her home in Footville, at the age of sixty-five years. She was one of the early settlers of that locality, having resided there for thirty-five years. She leaves three children, Mrs. William Carey, of Madison; Mrs. M. Walsh, of Chicago; and Mrs. J. E. Kelly, of Twin Lake. Mrs. Kelly was a noble woman loved and esteemed by all and her demise will be mourned by many.

E. R. Van Galder

Yesterday at noon from Jeffris, Wis., arrived the remains of the late E. R. Van Galder accompanied by the son of the deceased, H. A. Van Galder, and D. K. Jeffris. The funeral party proceeded directly to the residence of M. O. Van Galder in the town of La Prairie, where services were held, Rev. Robert C. Denison, of the Congregational church, officiating. The remains were laid to rest in the Turtleville cemetery.

THEY WILL ORGANIZE HERE

Steps Taken This Afternoon to Establish a Y. W. C. A.

At the South Jackson street home of Miss Susie Jeffris this afternoon, steps were taken for the formation of a Young Woman's Christian association in this city. That such an organization will soon be on a flourishing basis here is the opinion of those who are interested in the work. This afternoon Miss Teal, the state secretary, was present and talked of the work in Wisconsin. The advisability of organizing here was also fully discussed. Ladies of all denominations are urgently requested to join and the good work to be derived by such a society is too well known to need any explanation.

These Y. W. C. A. organizations are forming in all parts of the country, while in many cities they have been established for years. They are to the women what the Y. M. C. A. is to the men.

PLENTY OF RIVER WATER

Very Little Ice In Rock River This Spring

Recent rains have resulted in placing Rock river in a lively mood of late and during the past few days it has experienced a rise of several inches.

The ice in Rock river is behaving nicely this spring and there is little likelihood of trouble. In fact a large part of the ice has already gone out—melted up.

Within quite a distance of Janesville in both directions the ice has gradually melted away to a very thin surface and over large areas it has disappeared entirely. The fact that there will be no ice jams will relieve highway commissioners and the cities along the Rock, who have the care of bridges.

Fresh Fish

Our largest fish invoice of the week, which comes tomorrow for Friday's trade, includes trout, whitefish, smelts, pike, pickerel, black bass, herring and perch. We will also have some choice fresh smoked whitefish. Our oyster refrigerator, the only one in the city, will be well supplied with solid meat bivalves direct from the oyster beds at Baltimore. We ask no more for fancy stock oysters than others ask for common meats. Sanborn.

WOMAN SHOT TO DEATH.

An atrocious crime committed in Clay county, Georgia, by white cappers, the particulars of which are coming to light on account of the remoteness of the scene of the crime, has shocked the people of the state, and the case is before Governor Candler, who will offer a large reward for the apprehension of the guilty men. Alf Boynton and his wife, who resided near Ft. Gaines, were assassinated, and suspicion is strongly directed to white citizens of Baker county. Boynton was called to his door by several men about midnight. As he stepped out two loads of buckshot were fired into his body. His wife, with her young babe in her arms, was then ordered to come out, and she, too, was shot to death. The assassins then left, and another person in the house gave the alarm. The sheriff of the county and a large posse of indignant citizens traced the assassins into the adjoining county, Baker, following buggy and horse tracks.

It is suspected that Boynton and his

ALF BOYNTON.

wife were killed because the man was prosecuting his former landlord in Baker county on account of a dispute about some hogs. The crime is one of the blackest of recent months.

Air We Consume.

A man with a penchant for computation has calculated that when we are at rest we consume 500 cubic inches of air a minute. If we walk at the rate of one mile an hour we use 800, two miles 1,000, three miles 1,600, four miles, 2,300. If we start out and run six miles an hour we consume 3,000 cubic inches of air during every minute of the time.

AFFIRM JUDGMENT IN CARROLL CASE

SUPREME COURT UPHOLDS THE LOWER TRIBUNAL.

Suit Grew Out of a Partnership Existing Between Rock County Cattle Dealers Fifteen Years Ago—Details of the Controversy Brought Forth in Circuit Court.

The decision of the lower court in the case of Phillip Carroll vs. Ogden H. Fethers was affirmed by the supreme court yesterday.

The case was tried in Walworth county and the decision was in favor of the defendant.

Carroll was represented by A. Hyatt Smith and Fethers, Jeffris & Fifield in his suit against Walter Little fifteen years ago for partnership accounting. Judgment was given in his favor but he alleged that $4,000 of the amount due him was not paid to him, but was retained by the attorneys.

On the part of the attorneys it was claimed that the $4,000 went to A. Hyatt Smith on Carroll's written order.

MAY DISSOLVE ASSEMBLY.

Discretionary Authority Is Given to Gen. Brooke.

GOMEZ TO BE RECOGNIZED.

Administration at Washington Considers the Head of the Army the True Representative of Cuban Public Opinion—Power of United States.

Washington, March 15.—Discretionary authority has been given to Maj.-Gen. Brooke, governor general of Cuba, to dissolve the Cuban assembly.

From the tone of Gen. Brooke's dispatches officials expect that he will immediately avail himself of the authority invested in him. Such action will be the first interference of the government of the United States with persons styling themselves the representatives of the Cuban people, and if it occurs it will be entirely due to the illegal and unjustifiable acts of those persons.

Furthermore, Gen. Brooke will recognize Gen. Gomez as the representative of the Cuban people until such time as the national assembly of Cuba shall be organized. He will be consulted on all points relative to the welfare of Cuba, and Gen. Brooke will continue to show him the deference due his position as the recognized leader of the Cubans.

Recognizes Only Uncle Sam.

Havana, March 15.—Gen. Gomez says he recognizes only one power in the island—that of the United States. All that the Cubans can do, he declares, is by permission of the American authorities, and therefore the military assembly is acting as it does because it wants to get more money out of the United States. In this connection he points out that the assembly first proposed to ask $80,000,000. As for himself, he avers that he is not a beggar. The United States government offered the $3,000,000, and he has never asked an increase in the gift. Indeed, he says to ask more would be undignified and improper.

The military assembly met Tuesday afternoon with the ordinary guard. Gen. Sanguily offered resolutions thanking the United States for aid during the recent war and for the offer of $3,000,000, and proviidngs for the appointment of a committee of three to present these resolutions to President McKinley. The resolutions were adopted.

Candied Potatoes.

Candied sweet potatoes are prepared by boiling them until they are thoroughly cooked, but not mealy. They are then peeled and sliced. A shallow dish or tin is smeared with butter, and a layer of the sliced potatoes then put in; over this sugar is sprinkled, then another layer of potatoes and another of sugar, with a few bits of butter on top. Some cooks add a very little maple syrup just before putting them into the oven. As the potatoes are cooked they need only be left in a fairly hot oven long enough to brown and caramel slightly.

A Deep Lake.

The deepest lake in the world so far as known is Lake Baikal, in Siberia. While 9,000 square miles in area, or nearly as large as Lake Erie, it is 4,000 feet to 4,500 feet deep, so that it contains nearly as much water as Lake Superior. Its surface is 1,350 feet above sea level, and its bottom nearly 2,900 feet below it.

Noncommittal.

"No man has ever kissed me," said Belle. "How about me?" asked Willie. "My statement still holds good, you silly boy," she replied, in noncommittal fashion.—Philadelphia North American.

FOR RECIPROCITY TREATY.

Negotiations Are Resumed with Many Countries.

AGREEMENTS IN PROSPECT.

France, Germany and Great Britain Are Anxious to Participate in the Benefits Such a Compact Would Confer—Some Haste Is Necessary.

Washington, March 15.—Negotiations for reciprocity treaties with Germany have been resumed, and there is still a prospect that a treaty may be negotiated with Great Britain covering the British West Indies. In the case of France, Ambassador Cambon returns from Paris with the very earnest hope of carrying through a treaty under section 4 of the Dingley law. On the part of France it is proposed to give to the United States their "minimum" tariff list.

The German negotiations have been resumed on a rather broad scale. They began over a year ago on a strict commercial basis, and made no progress owing to Germany's course in certain other public matters. Recently, however, Germany has given unmistakable evidence of good will. As a result the officials have shown a disposition to listen with more attention to Germany's desires on reciprocity, and the subject is being considered in its broad general features.

The British negotiations reached an advanced stage and then collapsed entirely. The document was about ready to sign last summer, when the London authorities made a statement that they were considering the advisability of granting countervailing duties to the sugar producers of the British West Indies, after the American practice. This put off the reciprocity treaty. If Sir Julian Pauncefote goes to the disarmament congress at The Hague in May he is not likely to conclude the reciprocity negotiation before he goes, and after that the two years' period for negotiating reciprocity treaties under the Dingley law will have expired. The expiration of this period is urging all foreign countries to hasten their negotiations.

COUNTED AS LOST.

Ten Atlantic Vessels Missing for a Month or More.

New York, March 15.—The insurance premiums on ten steamships which left harbors on the Atlantic seaboard for transatlantic ports late in January have been raised in London to 90 guineas—the obituary rate, as it is known among insurance men. This means that the vessels, which have disappeared from human ken, are believed to have been lost. Not one of them has been sighted since it left the port of departure on this side of the Atlantic.

The value of vessels and cargo is estimated at two and a half million dollars as a conservative figure. The crews of the vessels aggregate 300.

To Bar Imported Miners.

Springfield, Ill., March 15.—The house Tuesday passed the Drew bill, designed to prevent the importation of laborers from other states to work in Illinois. The vote was: Yeas, 112; nays, 4. The negative votes were cast by Guffin, Martin of Cook, Scrogin and Wood.

Mr. Brown's bill to protect the lives and limbs of miners from the dangers resulting from incompetent miners was also passed.

May Stop the Pilgrimages.

Cairo, Egypt, March 15.—The government is considering the advisability of interdicting Moslem pilgrimages to Mecca, where the bubonic plague has appeared. The authorities have invited the ulemas, or interpreters of the Koran, to give their opinion as to the possibility of carrying through this precautionary measure without friction.

Interment of Dead Soldiers.

Washington, March 15.—Gen. Corbin has been making arrangements for the return of bodies of dead soldiers in Cuba and Porto Rico, with a view of providing for interment at such places as the relatives and friends may desire. The war department wants to know in each instance where the friends of the dead soldier desire his remains to be sent.

Paris Show to Open on Time.

New York, March 15.—Commissioner-General Picard of the Paris exposition writes to the New York office of the commission that the big show will open on time in 1900. The recent strike, he says, did not interfere with the decorative work, and order is now emerging out of the chaos of the construction period.

Tracks Buried in Solid Ice.

St. Ignace, Mich., March 15.—No trains have arrived or departed on the Duluth, South Shore & Atlantic railway since last Saturday. Eighty miles of the track are covered with solid ice west of Sage station. Large gangs are at work to-day picking ice from the rails.

Patrons of Industry Meet.

Toledo, Ohio, March 15.—The first session of the biennial meeting of the Patrons of Industry of America was held Tuesday. The session was occupied with discussion of mutual insurance, and plans were laid to carry it into all the states of the union.

Kaiser Not to Get More Men.

Berlin, March 15.—The reichstag Tuesday, by a vote of 209 to 141, rejected the army increase demanded by the government. The government committee's proposal was also rejected. The center and freisinnige union voted with the minority.

ILLINOIS LEGISLATURE.

Number of Important Measures Are Either Passed or Advanced.

Springfield, Ill., March 15.—Following is the gist of the routine doings in the legislature Tuesday:

The senate passed Brenholt bill fixing weight of bushel of corn in ear at sixty-eight pounds, of green apples at fifty pounds and of green pears at fifty-five pounds; bill authorizing A. O. U. W. to make assessments for and receive money from its general relief fund; also bill to punish false advertising of pedigrees of stallions and jacks. Sent to third reading Brenholt chattel mortgage bill after amending it by limiting life of mortgages to four years. Adopted joint resolution by Mr May authorizing governor to allow certain independent military organizations to parade with arms on St. Patrick's day.

The house sent to second reading three committee bills providing for a 2 per cent tax on gross receipts on sleeping-car, express and insurance companies; also senate bill for uniform law on negotiable instruments. Passed Drew bill to prohibit importation of labor into Illinois under false pretenses; also Brown bill creating miners' examining board in each district and requiring miners to secure licenses therefrom; also Alling bill requiring proposition for annexation of territory to park district to be submitted both to vote of electors in district and territory to be annexed. Approved senate St. Patrick's day resolution. Passed Trowbridge bill repealing law providing bounty for killing English sparrows. Sent to third reading senate municipal pawnshop bill; also Mansfield bill prepared by state board of arbitration providing for arbitration of labor controversies.

Minnesota Elections Close.

St. Paul, Minn., March 15.—Tuesday's Minnesota elections were very close, the republicans winning at Royalton, Winthrop and Fairfax, the democrats at North St. Paul and Maynard, and the populists at Atwater. Maynard went for license by three votes and Fairfax for no license by five.

Nerves, stomach and liver are all aided by "Orangeine," hence its quick and safe action in colds and headaches.

Chicago Murderer Confesses.

Chicago, March 15.—August A. Becker, the uxoricide, confessed last night that he killed his wife with a hatchet, cut her body in pieces, and then boiled and burned them. The residuum of bones he buried on the prairie near his barn in the rear of 5017 Rockwell street. The police went to Becker's barn with him, and returned with the bones, found where Becker said he buried them.

Be sure and use the old and well tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums allays all pain, cures wind colic, and is the best remedy for diarrhœa. Twenty-five cents a bottle.

Congress on Lung Diseases.

Washington, March 15.—The German ambassador has informed the department of state that the German central committee for the erection of hospitals for persons with diseased lungs has resolved to convoke a congress for the prevention and cure of tuberculosis as an endemic. The congress will convene at Berlin May 24 and continue in session four days. The papers to be read and remarks to be made are, according to the decision of the committee on organization, to embrace five subjects—first, propagation; second, aetiology; third, prophylaxis; fourth, therapeutics; fifth, management of hospitals. The discussion of these subjects will be in the German language, although by permission of the president it may be held, by way of exception, in other languages.

Rev. E. Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by People's Drug Co.

Favors a Racing Measure.

Springfield, Ill., March 15.—Tuesday afternoon the house committee on miscellaneous subjects made a favorable report on the Kettering bill allowing pool-selling on race-tracks. The main provisions of this measure have already been printed. The bill was so amended as to prevent the sale of foreign pools.

BUY FURNITURE IN THE MONTH OF MARCH.

Forehanded buying will save you more in a month than painful pinching will in a year, therefore make your Furniture purchases for a year to come during our

GRAND MARCH CLEARING SALE.

I have held several of these clearing sales, but none more successful than this. The goods are fresh from the factory in every case and are dependable in every way. I do not put out any shop worn goods or trash of any kind. The Furniture bargains offered during this sale are absolutely withovt equal either in the large city stores or out of them. Best way to find out is to come and talk with us.

We Suit Every Taste,

Having this line complete in all new broad and medium toed lasts in every shade and weight of colored vici kid and calf skin leathers. 'Tis your business to see the "Regent".

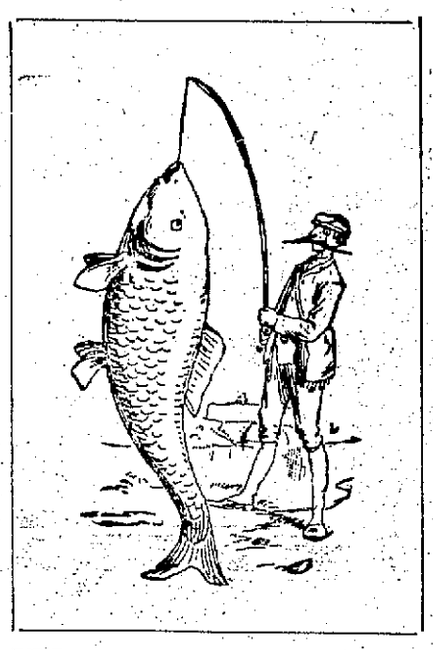
Ours to sell,

SPENCER.

"The Newest." On the Bridge.

A Cathing Fish Stock.

We will receive Thursday, for those who observe the Friday church rules and also for the people who like a diversion from the every-day hum-drum of meat, the choicest lot of fresh caught lake Fish that will come to the city. Our Fish market receives a very large paironage, and we do everything in our power to make it deserving of your trade. Included in our invoice of Thursday we will have:



Trout,
White Fish,
Pike,
Pickerel,
Smelts,
Black Bass,
Perch,
Herring. . .

AND FRESH SMOKED WHITE FISH.

We carry a very large line of Salt Fish for people who wish them.

Our Oyster Refrigerator

(The only one in the city) is well supplied at all times with fancy bulk Baltimore Oysters direct from the Oyster beds. We ask you no more in price for solid meat Oysters cared for in the best way than other dealers ask for watery pail taste goods. Send in your Fish order early so that we can insure prompt delivery for Friday dinner.
